-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Applicant's election without traverse of the invention of Group I, species B (claims 12-20) in the reply filed on June 25, 2009 is acknowledged.

Claims 1-11 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 25, 2009.

### *Claim Rejections - 35 USC § 101*

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 12-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are directed to a method for gathering data and calculating a customized transition zone between ablation and non-ablation optical zones. The claims are devoid of positive recitations for applying the calculated transition zone to a medium/ocular tissue such as the cornea.

The invention claimed as a whole **is a combination of data gathering and mental steps**. No transformation of subject matter occurs in these method steps. Mental processes-or processes of human thinking-standing alone are not patentable even if they have practical application, see *Comiskey*, 499F.3d 1365, 1377 (Fed. Cir. 2007). Furthermore, the data gathering steps, even if performed by a machine, are not

sufficient to render the subject matter statutory under § 101. *See In re Grams*, 888 F.2d 835, 839-40 (Fed. Cir. 1989).

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Ruiz US Patent No. 6,547,393.

Ruiz discloses apparatus and method of use, the method comprising the steps of: gathering data related to refractive disorders of ocular tissue, and manipulating said data to perform procedures suitable for correcting refractive defects of the eye, such as LASIK as presently claimed (see Figs. 3, 4, and 6-8).

### ***Conclusion***
